

Thanks for Joining Me on the Webinar on The Facebook Ad Formula

Here is your free action plan:

1. Stop focusing on tons of different plans of action. Focus on one thing and stick to it.
2. Starting a business of your own isn't hard... but it DOES require you to work. There's working hard and there's working smart. Know the difference and make sure to work smart. I have always felt that the benefits of owning your own business far exceed the disadvantages.
3. Learn from my mistakes. I will help you make it. Model successful people. Stop doing the same things that you've always done and expecting different results.
4. Be aware of the reasons that you haven't succeeded as of yet. Make changes. Failure is part of the deal. Keep trying. Overcome those failures.
5. You have to take control of your future. If you don't, who else will?
6. The Facebook Ad Formula will help you get the things that you want out of life (vacations, freedom, fancy toys, retirement security, etc.).
7. You need a system that has been proven to work. Anything else is just trial and error (and that method takes forever to be successful... if you ever get there). You need a system that works with the same guarantee of success that Subway and McDonalds restaurants have.
8. A reliable traffic source is one of the main things that separates the unsuccessful from the successful. You always want to have more than 1 reliable traffic source otherwise your business is very vulnerable.
9. Traffic + Free Stuff = Leads... Leads + Quality Product = Sales.
10. If you don't have a product or services of your own to sell, start by promoting someone else's product or service. You can start with clickbank.com. The ultimate goal is to promote your own products or services.
11. Life (and business) will throw you curve balls. How you react to those curve balls will determine whether you are successful or not. (Keep trying to make things work... don't give up).
12. Watch out for naysayers. Every new idea goes through a phase where everyone tears it down. Trust your intuition and experience and let them decide.

13. Once you can bring in \$1.01 in sales for every \$1.00 that you spend on marketing, you've cracked the code. The hard part is over. Now, just keep working on improving your funnel. Then you'll own a legal printing press.

14. A proven system is one of the most valuable things in business. Hands down. If you don't have a proven system of your own, copy someone else's system and make small adjustments to make it work for your niche. My Facebook Ad Formula is a proven system that is ready for you to "step into."

16. Facebook Advertising is on the tipping point RIGHT NOW. You better get your stake in the ground now or you'll be left out in the cold.

17. Let me help you shortcut the road to success and provide you with my Facebook Ad Formula. It's a proven system that you can easily step right into.

Go here now to shortcut your path to success:
